I.N.C.A. NORD FISH Sh.p.k is the only producer of natural casings & animal by-products in Albania

INCA – Art of Quality!
I.N.C.A. NORD FISH Sh.p.k produces and sells high-quality processed intestines & animal by products under the trade mark “INCA: Natural Casings”
MISSION

We aim to satisfy our clients’ demands in natural and high quality natural casings. We achieve this via a combination of traditional technology, modern equipment and high standards of production, professionalism of our employees and tailor made approach to every client.

We are a company which successfully combines European experience and Albanian diligence!

Technology and high quality processing

I.N.C.A. NORD FISH Sh.p.k is the modern company which performs full cycle of works related to processing, packaging and logistics of animal intestines & by products under trade mark “INCA: Natural Casings”.

Manufacturing process is carried out in compliance with all veterinary and sanitary standards. Professionalism of our technologists, modern equipment and high manufacturing standards guarantee safety and quality of our products.

Approved as Non-EU Country food establishment

I.N.C.A. NORDFISH Sh.p.k is the only company with such a range of processing in the western Balkan (Albania, Macedonia, Montenegro, Kosovo, Bosnia).

The I.N.C.A. NORDFISH Sh.p.k company is allowed to export to EU based on export license № 25 AL PP (List of Approved Non-EU Country food establishments), and exports products and services regularly to Austria, Italy, Ireland, France, Romania and other EU countries.

Social and environmental responsibility

I.N.C.A. NORD FISH Sh.p.k believes in having direct impact on people by providing them healthy food. We also care about the environment through suitably processing animal intestine, thus contributing in a cleaner environment, not only for the surrounding area but for the entire Albania community.

Development and modernization initiatives

I.N.C.A. NORD FISH Sh.p.k has been taking up intense development and modernization initiatives since 2007. A significant amount of our profit is regularly reinvested in the purchasing of modern and technological equipment. As a result, the company increases volume of products yearly.
GOALS OF OUR ACTIVITY

- Production of highest quality natural casings and animal by products that comply with the International Standards requirements
- Improvement of the manufacturing process by means of combination of traditional hand processing with the most advanced technologies and equipment
- Highest standards of the corporate culture, social responsibilities and thinking creatively on environmental improvement
COMPANY PRINCIPLES

The success of our company is achieved due to the diligence of our specialists. For now, the company is characterized by a closed-loop production cycle: from collecting intestine products from slaughterhouses, cleaning, selecting, processing, packaging - till delivery to our clients.

We perform every stage of the production process by ourselves, using the best EU practices, modern equipment and hand-processing technologies. We do our best in order to provide our customers with products of the highest quality, whose health properties are flawless.
